

Reliable Pharmacokinetic and Immunogenicity Testing with BioGenes & FyoniBio

BioGenes has been a worldwide operating specialist for customized immunoassay and antibody development for research, diagnostics, drug development and production since 1992. They work to the highest quality standards, as required by the FDA & EMA.

FyoniBio, the service branch of GlycoTope, offers excellent know-how in assay development and validation as well as the analysis of clinical samples according to GCLP for pharmacokinetic (PK), immunogenicity and biomarkers.

By combining our scientific expertise, we can offer a complete package for your PK and immunogenicity studies, from antibody and assay development to analysis of clinical samples according to GCLP.

Why Choose Us

- Assay development and validation according to the FDA & EMA guidelines
- Maximized efficiency & streamlined processes
- Flexibility and customized solutions
- High quality, made in Germany
- Consultation by scientific experts from both teams

How to Get in Touch

Our experts will be happy to discuss your project with you in detail. Please write an email to service@biogenes.de to get in touch.
