

The FyonBio GmbH is an innovative service provider in the field of development and analytics of pharmaceutical products and clinical samples, and a partner of the pharmaceutical industry. Located at the Biotech Campus Berlin Buch, FyonBio is certified according to ISO 9001:2015 and operates under GCLP and GxP conditions in parts. As part of the development of innovative methods for the analysis of oligonucleotide therapeutics, we are currently looking for a

Intern / Master's student

(w/m/d)

These tasks await you:

- Development of an innovative assay for the quantification of oligonucleotide therapeutics in biological samples such as serum, plasma, and tissue.
- DNA hybridization in conjunction with ELISA/ECLIA techniques.
- Characterization of the analytical methods in terms of accuracy, precision, specificity, sensitivity, linearity, and robustness.

Depending on the progress of the work, the methods can be supplemented with:

- Stability studies using mass spectrometry.
- Quantification of oligonucleotide therapeutics using qPCR.

These are our expectations of you:

- Enrolled student in Life Science / Biotechnology programs.
- Completed Bachelor's degree.
- Initial practical experience in molecular biology and/or ELISA techniques, e.g., through internships/Bachelor's thesis.
- You should be able to dedicate at least 6 months for practical work.
- Organized and reliable.
- Resilience and flexibility coupled with the ability to prioritize.
- Independent and very careful working style.
- Proficient in using MS Office (Word, Outlook, PowerPoint, Excel).
- Excellent communication skills in German and English.
- Friendly demeanor and teamwork ability.

What you can look forward to with us:

We are an innovative and future-oriented company with a very collegial working environment and flat hierarchies. We live our positive corporate culture, which is based on mutual respect and appreciation. Varied and interesting tasks in motivated teams promise independent work. Have we sparked your interest? Then we would like to get to know you and look forward to receiving your application documents via email to Stefanie Klunker: personal@fyonibio.com. We are also available for any inquiries by phone at +49-30-9489-2500.
