

FyoniBio is a leading Contract Development and Manufacturing Organization (CDMO) specializing in providing innovative solutions to the pharmaceutical, biotechnology, and life sciences industries. We are dedicated to advancing healthcare through cutting-edge technologies and comprehensive services in drug development, manufacturing, and supply chain management.

To strengthen our team from as of now and on full-time basis, we are looking for an

IT / Sr. Manager

(all genders)

FyoniBio is seeking a highly skilled and experienced IT/Sr. Manager to join our dynamic team in Berlin, Germany. The IT/Sr. Manager will play a critical role in leading the IT department, overseeing infrastructure, application systems, and cybersecurity initiatives, and driving innovation to support the company's strategic objectives.

Your Responsibilities:

- **IT Strategy and Planning:**
 - Develop and implement IT strategies aligned with company goals and objectives.
 - Collaborate with senior management to assess IT needs, prioritize initiatives, and allocate resources effectively.
- **Infrastructure Management:**
 - Oversee the design, implementation, and maintenance of IT infrastructure, including networks, servers, storage, and telecommunications systems.
 - Ensure high availability, scalability, and security of infrastructure components to support business operations.
- **Systems Administration:**
 - Manage enterprise-wide systems, including Enterprise Resource Planning across streams of Finance, HR, Procurement, and other business applications such as qPulse eQMS, and ELN.
 - Lead system upgrades, enhancements, and integrations to optimize performance and functionality.
- **Cybersecurity and CSV Compliance:**
 - Develop and implement cybersecurity policies, procedures, and controls to protect company assets and data.
 - Monitor and assess IT security risks, conduct regular audits, and implement mitigation measures to ensure compliance with regulatory requirements.
 - Develop and implement CSV policies, procedures, and controls to ensure the systems, continue in a state of validation.
- **Technical Support and Helpdesk:**
 - Provide leadership and direction to the IT support team, ensuring timely resolution of technical issues and user inquiries.
 - Implement service desk best practices and metrics to measure and improve support efficiency and customer satisfaction.
- **Innovation and Technology Adoption:**
 - Identify emerging technologies and trends relevant to the pharmaceutical industry and assess their potential impact on business operations.
 - Lead initiatives to evaluate, pilot, and adopt new technologies to drive innovation and enhance competitive advantage.

Your Profile:

- Bachelor's degree in Computer Science, Information Technology, or a related field; Master's degree preferred.
- Proven experience as an IT-Manager or similar role, preferably in the pharmaceutical or life sciences industry for a minimum of 5 to 8 years.
- Strong knowledge of IT infrastructure, systems administration, CSV and cybersecurity best practices.
- Fluency in German is required, and proficiency in English is preferred.
- Excellent leadership and team management skills, with the ability to inspire and motivate cross-functional teams.
- Strong problem-solving and decision-making abilities, with a strategic mindset and attention to detail.
- Experience with IT project management methodologies and tools.
- Excellent communication and interpersonal skills, with the ability to collaborate effectively across departments and levels of the organization.

What We Offer:

We are an innovative and future-orientated company with a very collegial working environment and flat hierarchies. We live our positive corporate culture, which is based on mutual respect and appreciation. Varied and interesting activities in motivated teams promise an independent work. We also offer:

- Competitive salary and performance-based incentives.
- Opportunities for professional development and career advancement within a growing organization.
- Dynamic and collaborative work environment with a focus on innovation and excellence.
- Flexible working hours with the possibility to work from home.
- 30 days of annual leave per year.
- Social benefits such as a company pension scheme and capital-forming benefits.
- An informal corporate culture, without dress code, and „Sie“.
- Regular company meetings and company events such as summer and Christmas parties.
- Complimentary water, tea, and coffee for employees, as well as discounted food and drinks at the campus canteen.
- Attractive working environment on the green Campus Berlin-Buch www.campusberlinbuch.de.
