

FyoniBio GmbH is a biologics service provider with more than 15 years of scientific experience and a solid track record across over 100 biologics projects for biotech and pharma partners worldwide. Our work supports programs that have progressed to clinical development in both FDA and EMA regions. We offer a broad service portfolio along the development chain — from cell line and process development to analytical characterization and clinical bioanalysis. Based at the Biotech Campus Berlin-Buch, FyoniBio is ISO 9001:2015-certified, with parts of our operations conducted under GCLP conditions.

To strengthen our team, we **are** looking for a **part-time/full-time** (30-40 hours/week)

Technical Assistant (m/f/d) Clinical Bioanalysis/Bioassays

Your responsibilities

In this role, you will be part of our Clinical Bioanalysis team and contribute directly to customer and clinical projects. Your tasks will include:

- Development of cellular and ECLIA-based assays
- Handling clinical samples under GCLP conditions
- Validation of assays for the analysis of clinical samples
- Performing sample analysis with validated assays
- Documentation of results in accordance with GCLP requirements
- Working on varied customer projects

Your profile

You will fit well into our team if you enjoy working in the lab and like to take responsibility for your work. Ideally, you bring:

- Completed training as BTA, CTA or MTLA
- Some initial experience in a regulated environment (e.g. GLP, GCLP, GMP)
- At least some experience with immunological techniques, including cell culture and flow cytometry
- A careful and reliable approach to data evaluation and documentation
- Good organisational skills and an independent working style
- Confident use of MS Office applications (Excel, PowerPoint, Word)
- The ability to work flexibly and collaboratively in a team
- Good communication skills in German and English

What you can look forward to with us

At FyoniBio, you will join a collegial team with short decision paths and a respectful, appreciative working culture. You can expect varied and hands-on tasks with room for independent work. We also offer:

- Flexible working hours, including the option to work from home part of the time
- 30 days of holiday

- Cost sharing for the BVG ticket or the Deutschlandcard
- Attractive company pension schemes and capital-forming benefits
- Structures that support a good work-life balance
- Thorough onboarding and training by experienced and supportive teammates
- Modern equipment and state-of-the-art instruments
- Regular team and company meetings
- Structured training and further education opportunities for all employees
- Company events such as summer and Christmas parties
- Free water, tea and coffee; discounted food and drinks in the campus canteen
- Opportunity to participate in health and sports activities offered by [CampusVital](#)
- An attractive working environment on the green [Campus Berlin-Buch](#) with good transport connections

Interested?

We would be happy to get to know you.

Please send your application documents by email, including your possible starting date and salary expectations, to:

Mrs Stefanie Klunker
personal@fyonibio.com

For questions, you can reach us at **+49-30-9489-2500**.

By sending us your application documents, you agree that we may store your documents for up to six months. After this period, your data will be permanently deleted.
